Efficient C/C++ Programming Steve Heller, 2014-05-10 Efficient C C Programming describes a practical real world approach to efficient C C programming Topics covered range from how to save storage using a restricted character set and how to speed up access to records by employing hash coding and caching A selective mailing list system is used to illustrate rapid access to and rearrangement of information selected by criteria specified at runtime Comprised of eight chapters this book begins by discussing factors to consider when deciding whether a program needs optimization In the next chapter a supermarket price lookup system is used to illustrate how to save storage by using a restricted character set and how to speed up access to records with the aid of hash coding and caching Attention is paid to rapid retrieval of prices A selective mailing list system is then used to illustrate rapid access to and rearrangement of information selected by criteria specified at runtime The book also considers the Huffman coding and arithmetic coding methods of data compression a token threaded interpreter whose code can run faster than equivalent compiled C code due to its greater code density a customer database program with variable length records and index and key access to variable length records The final chapter summarizes the characteristics of the algorithms encountered in previous chapters as well as the future of the art of optimization This monograph will be a useful resource for practicing computer programmers and those who intend to be working programmers

Back to the Moon Travis S. Taylor, Les Johnson, 2010-12-01 THE SECOND TIME AROUND IS HARDER Decades after the last footprints were left on the Moon the U S was preparing to return to the Lunar surface in a new class of rockets when the mission suddenly became much more urgent It would have to be a rescue mission Unbeknownst to the rest of the world China had sent its own Lunar expedition A manned expedition Until a distress call was received no human outside of China even knew that the mission was manned or that their ship had crash landed and couldn't take off again Time was running out and if the four Chinese astronauts were to be rescued the American lunar mission would have to launch immediately with only a skeleton crew Once the heroic U S astronauts were underway the army of engineers and scientists back home had the daunting task of deciding what equipment could be left on the Moon to permit the Lunar lander vehicle vehicle to lift safely from the Moon with the two U S astronauts and the four stranded Chinese taikonauts Could the U S mount such a mission successfully and would thousands of years of instilled honor _allow the Chinese astronauts to accept a rescue At the publisher's request this title is sold without DRM Digital Rights Management
