China were not only enthusiastic in amateur storytelling but also showed unprecedented interest in recording stories on different aspects of literati life. These stories appeared in diverse forms including narrative poems, tales of the marvelous, records of the strange, historical miscellanies, and transformation texts. Through storytelling, literati explored their own changing place in a society that was making its final transition from hereditary aristocracy to a meritocracy, ostensibly open to all. Literati storytelling shows how these writings offer crucial insights into the reconfiguration of the Chinese elite, which monopolized literacy, social prestige, and political participation in imperial China. Latecomer State Formation Sebastián Mazzuca, 2021-05-11. A major contribution to the field of comparative state formation and the scholarship on long-term political development of Latin America. Ambitious and rich. A sweeping and general theory of state formation and detailed historical reconstruction of essential events in Latin American political development. It combines structural elements with a novel emphasis on the political incentives and bargaining that shaped the map we have today. Hillel David Soifer. *Governance*. Latin American governments systematically fail to provide the key public goods for their societies to prosper. Sebastián Mazzuca argues that the secret of Latin America's failure is that its states were born weak, in contrast to states in western Europe, North America, and Japan. State formation in post-Independence Latin America occurred in a period when capitalism, rather than war, was the key driver forging countries. In pursuing the short-term benefits of international trade, Latin American leaders created states with chronic weaknesses, notably patrimonial administrations and dysfunctional regional combinations. Mazzuca analyzes pathways leading to variations in country size and level of pacification. Post-led state formation in Argentina and Brazil, party-led in Mexico, Colombia, and Uruguay, and lord-led in Central America, Venezuela, and Peru. **Shakespeare's Fans** Johnathan H. Pope, 2019-12-05. This book examines Shakespearean adaptations through the critical lens of fan studies and asks what it means to be a fan of Shakespeare in the context of contemporary media fandom. Although Shakespeare studies and fan studies have remained largely separate from one another for the past thirty years, this book establishes a sustained dialogue between the two fields. In the process, it reveals and seeks to overcome the problematic assumptions about the history of fan cultures, Shakespeare's place in that history, and how fan works are defined. While fandom is normally perceived as a recent phenomenon focused primarily on science fiction and fantasy, this book traces fans' practices back to the eighteenth century, particularly David Garrick's Shakespeare Jubilee in 1769. *Shakespeare's Fans* connects historical and scholarly debates over who owns Shakespeare and what constitutes an appropriate adaptation of his work to online fan fiction and commercially available fan works. *Sharing Identities* Mohd Anis Md Nor, Stephanie BurrIDGE, 2020-11-29. This anthology celebrates dancing diversities in Malaysia, a multicultural nation with old and not-so-old dance traditions in a synchronicity of history, creativity, inventions, and representation of its people, culture, and traditions. These articles and interviews document the legacy of dances from the Malay Sultanates to a contemporary remix of old and new dances inspired by a mélange of influences from the old world of India, China, European, and indigenous dance traditions.

This gives forth dance cultures that vibrate with multicultural dance experiences Narratives of eclecticism syncretic and innovative dance forms and styles reflect the processes of inventing and sharing of dance identities from the era of the colonial Malay states to post independence Malaysia
