The Latinization Of U S Schools Successful:

Latinization of U.S. Schools Jason Irizarry, 2015-12-03 Fueled largely by significant increases in the Latino population the racial ethnic and linguistic texture of the United States is changing rapidly Nowhere is this Latinisation of America more evident than in schools The dramatic population growth among Latinos in the United States has not been accompanied by gains in academic achievement Estimates suggest that approximately half of Latino students fail to complete high school and few enroll in and complete college The Latinization of U S Schools centres on the voices of Latino youth It examines how the students themselves make meaning of the policies and practices within schools The student voices expose an inequitable opportunity structure that results in depressed academic performance for many Latino youth Each chapter concludes with empirically based recommendations for educators seeking to improve their practice with Latino youth stemming from a multiyear participatory action research project conducted by Irizarry and the student contributors to the text [Latinization](#)

Indigenous Students Rebecca A. Campbell-Montalvo, 2023-05-15 Based upon research in rural central Florida The Latinization of Indigenous Students examines how schools perceive and process demographic information including how those perceptions may erase Indigeneity and impact resource access Based on multiyear fieldwork Campbell Montalvo argues that languages and racial identities of Indigenous Latinx students and families may be re formed by schools erasing Indigeneity However programs such as the federally funded Migrant Education Program can foster equitable access by encouraging pedagogies that position teachers as cultural insiders or learners Anchored by pertinent anthropological theories this work advances our ability to name and explain pedagogical phenomena and their role in rectifying or reproducing colonialism among marginalized and minoritized groups [Latino Civil Rights in Education](#) Anaida Colon-Muniz, Magaly Lavadenz, 2015-10-05 Latino Civil Rights in Education La Lucha Sigue documents the experiences of historical and contemporary advocates in the movement for civil rights in education of Latinos in the United States These critical narratives and counternarratives discuss identity inequality desegregation policy public school bilingual education

Pedagogy of Commitment Paulo Freire,2015-11-17 This first English translation of Pedagogy of Commitment takes readers deep into the acts and meaning of living a life of community and social commitment Paulo Friere discusses how for teachers specifically this commitment is not only to students to the underprivileged or to the education of those who speak a different language but to the transformation of the self to become more deeply responsive to the needs of social transformations More than any other Freire book this speaks directly and plainly to the lives of individuals and to teachers It is an inspiring and passionate call from a global giant of progressive education **Born Out of Struggle** David Omotoso Stovall,2016-03-31 Demonstrates how critical race theory can be useful in real world situations Rooted in the initial struggle of community members who staged a successful hunger strike to secure a high school in their Chicago neighborhood David Omotoso Stovall s Born Out of Struggle focuses on his first hand participation in the process to help design the school Offering important lessons about how to remain accountable to communities while designing a curriculum with a social justice agenda Stovall explores the use of critical race theory to encourage its practitioners to spend less time with abstract theories and engage more with communities that make a concerted effort to change their conditions Stovall provides

Border Thinking Andrea Dyrness, Enrique Sepúlveda III, 2020-03-31 Rich accounts of how Latinx migrant youth experience belonging across borders As anti immigrant nationalist discourses escalate globally *Border Thinking* offers critical insights into how young people in the Latinx diaspora experience belonging make sense of racism and long for change Every year thousands of youth leave Latin America for the United States and Europe and often the young migrants are portrayed as invaders and if able to stay told to integrate into their new society *Border Thinking* asks not how to help the

diaspora youth assimilate but what the United States and Europe can learn about citizenship from these diasporic youth

Working in the United States Spain and El Salvador Andrea Dyrness and Enrique Sep lveda III use participatory action research to collaborate with these young people to analyze how they make sense of their experiences in the borderlands Dyrness and Sep lveda engage them in reflecting on their feelings of belonging in multiple places including some places that treat them as outsiders and criminals Because of their transnational existence and connections to both home and host countries diaspora youth have a critical perspective on national citizenship and yearn for new forms of belonging not restricted to national borders The authors demonstrate how acompa amiento spaces for solidarity and community building among migrants allow youth to critically reflect on their experiences and create support among one another Even as national borders grow more restricted and the subject of immigration becomes ever more politically fraught young people s identities are increasingly diasporic As the so called migrant crisis continues change in how citizenship and belonging are constructed is necessary and urgent to create inclusive and sustainable futures In *Border Thinking* Dyrness and Sep lveda decouple citizenship from the nation state calling for new understandings of civic engagement and belonging

Identity Intersectionalities, Mentoring, and Work-Life (Im)Balance Katherine Cumings Mansfield,Anjalé D. Welton,Pei?Ling Lee,2016-08-01 Identity matters Who we are in terms of our intersecting identities such as gender race social class dis ability geography and religion are integral to who we are and how we navigate work and life Unfortunately many people have yet to grasp this understanding and as a result so many of our work spaces lack appropriate responses to what this means Therefore *Identity Intersectionalities Mentoring and Work life Im balance* Educators Re negotiate the Personal Professional and Political the most recent installment of the work life balance series uses an intersectional perspective to critically examine the concept of work life balance In an effort to build on the first book in the series that focused on professors in educational leadership preparation programs the authors here represent educators across the P 20 pipeline primary and secondary schools in addition to higher education This book is also unique in that it includes the voices of practitioners students and academics from a variety of related disciplines within the education profession enabling the editors to include a diverse group of educators whose many voices speak to work life balance in unique and very personal

ways Contributing authors challenge whether the concept of work life balance might be conceived as a privileged and even an impractical endeavor Yet the bottom line is conceptions of work life balance are exceptionally complex and vary widely depending on one s many roles and intersecting identities Moreover this book considers how mentoring is important to negotiating the politics that come with balancing work and life especially if those intersecting identities are frequently associated with unsolicited stereotypes that impede upon one s academic professional and personal pursuits in life Finally the editors argue that the power to authentically be ourselves is not only important to individual success but also beneficial to fostering an institutional culture and climate that is truly supportive of and responsive to diversity equity and justice Taken together the voices in this book are a clarion call for P 12 and higher education professionals and organizations to envision how identity intersectionalities might become an every day understanding a normalized appreciation and a customary commitment that translates into policy and practice
