**Journey** Archie Morris III D.P.A.,2019-03-21 For a period of eighty five years the M Street Dunbar High School was an academically elite all black public high school in Washington DC As far back as 1899 its students came in first in citywide tests given in both black and white schools Over this eighty five year span approximately 80 percent of M Street Dunbar s graduates went on to college even though most Americans white or black did not attend college at all Faculty and students were mutually respectful to one another and disruptions in the classroom were not tolerated Yet in this era of best practices this public high school has received virtually no attention in the literature or in policy considerations for inner city education The Dunbar High School today with its new building and athletic facilities is just another ghetto school with abysmal standards and low test score results despite the District of Columbia s record of having some of the country s highest levels of money spent per pupil The purpose of this study is to explore the history of a high school that was successful in teaching black children from low income families and to determine if the learning model employed there could be successful in a modern inner city public education environment      **The Software Encyclopedia 2000** Bowker Editorial Staff,2000-05
