English Studies in Indian Universities Ravindra Baburao Tasildar, 2019-01-22 Right from its formal introduction in India in 1835 through Thomas B Macaulay's Minute English has been intrinsically linked with the employment prospects of Indians. During their regime the British promoted English education to fulfil the requirement of English knowing Indians for administrative purposes. Owing to globalization the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India English education was a passport to government jobs while in the twenty first century proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-à-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts BA. It also reflects on how globalization has strengthened the connection between English and employment.

Deconstructing Teacher Education in Contemporary Times Alka Behari, 2025-09-11 The book provides a comprehensive overview of the field of teacher education and analyses its concepts, ideas, notions, theories, debates, and practices. In this, the journey of the development of teacher education in the global context and the policy journey of teacher education in India is traced in an interesting manner. Several dimensions of teacher education are revisited with a view to compel the readers to reflect upon alternate ways of looking at them. An examination of how the underlying socio-political factors affect teacher education, the initial preparation of teachers and their continued professional development forms a significant part of the book. What are the debates and issues in teacher education? Are there ready-made solutions to resolve them? Are there questions that are better left open-ended which researchers continue to analyse and grapple with? Engaging the readers in such a reflective exercise and taking them on a journey of exploring the large and new vista that teacher education has come to embody will enable them to understand it both as a discipline and a field of practice. Given that teacher education is a compulsory component in all teacher education institutions, this anthology will be an essential reading for students, scholars, teachers, and teacher educators. It will be useful and purposeful for policymakers, organisations, and professionals working in the area of teacher education. The variety of themes covered and the diverse styles of writing coupled with a unifying thread of building up the discourse in teacher education in contemporary times endow the book with a multicultural flavour. A must-read for all.

English Studies in India Banibrata Mahanta, Rajesh Babu Sharma, 2018-11-03 This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies from sociological and political

hierarchies to the dynamics of intellectual development in the English language environment Interrogating both policy and practice pertaining to English Studies in the context of Indian society culture history literature and governance the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities Since the introduction of English to India more than 2 centuries ago the language has transmuted the very fabric of Indian society culture history literature and governance The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context This volume is for scholars and researchers of English literature and language studies linguistics and culture studies and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India
