Domestic Violence: Cross Cultural Perspective M. Basheer Ahmed

M.D., 2009-07-28 Domestic violence is a global phenomenon occurring among people of all races, ages, social, economic status, educational, and religious backgrounds. Family roles, values, customs, and expectations are deeply rooted within a person's culture and religious traditions. As our society becomes increasingly multi-cultural, it is critical that we understand domestic violence within a cross-cultural context. Such an understanding will enable us to develop culturally appropriate interventions in addressing the issue of domestic violence in our communities. Many community and religious leaders are not familiar with the incidence of domestic violence among immigrant populations and lack the knowledge of the effect of domestic violence on the victims, their children, the legal implications, and the resources available for them. This book is written for health professionals, religious, and community leaders in a simple language to make them familiar with some unique features of people following different religions and cultures.

The Oxford Textbook of Palliative Social Work Terry Altiglio, Shirley Otis-Green, John G. Cagle, 2022 It is so important to advocate for things that may not always seem possible. Getting to work with patients' families at the end of their life is the ultimate honor. Lauren G. Markham, MSW, LCSW, APHSW-C. In this work, one witnesses both depths of human suffering and heights of human transcendence that can inspire both awe and fear. At those times, I have found that surrendering my need to be an expert and instead allow myself to simply be a human is the wisest action. Kerry Irish, LCSW, OSW-C, FAOSW.
