The mathematicians and educators who comprise COMAP created For All Practical Purposes FAPP in response to the following question: If there were a course designed to help impart mathematical literacy to today's students, what should it include? Like previous revisions, the Sixth Edition of FAPP carefully re-examines this question to better reflect our changing world. In keeping with the FAPP tradition, the text continues to focus on mathematics relevant to consumers, business, history, and social sciences, incorporating a number of content and pedagogical changes and adding new interactive features on the Web. The result: the ideal liberal
