Wise, 2007-01-01 Social Problems explores the consequences of symbolic interactionism in society a theory which contends that people attach meanings to symbols such as language or gestures and base their behaviors on their interpretations of these meanings Norman A Dolch Linda Deutschmann and Helen Powell compile a number of critical and innovative essays that explore different aspects of society including mental illness race relations terrorism and family life **Discourses of Globalisation, Human Rights and Sports** Joseph Zajda, Yvonne Vissing, 2023-08-21 This book discusses major discourses of performing sports within human rights Research findings data demonstrate that sports is an inequitable field today that has the potential to be a social change agent There is more

discussion about rights violations and what the fields of sports can do to be more rights respecting but the discussions are at a surface rather than analytic level for most sports organizations In sports culture and human rights as an emerging field it is important to develop well crafter theoretical methodological and pedagogical body of knowledge There is an academic discipline of sport that showcases its interdisciplinary nature Linking sport to the field of human rights will require theoretical methodological and pedagogical evolution in this new discipline There are both organizational environmental and individual factors associated within the nexus of sports athletes and human rights This book links together sports and human rights in a systematic and analytical way It contains chapters that discuss human rights policies in performing sports from both organizational and interpersonal perspectives The book focuses on the benefits of sports and the human rights and safety challenges within the operations of sports organizations and their impact on individual players Connecting Sociology to Our Lives Tim Delaney, 2015-11-17 Many introductory texts claim to make sociology relevant to student interests Perhaps no other text has done this so completely and engagingly as *Connecting Sociology to Our Lives* Tim Delaney not only uses popular and contemporary culture examples he explains sociology thoroughly within the frame of the contemporary culture of students a culture shaped by political economic and environmental trends just as much as by today s pop stars This book will help academics to engage their students in sociology through the prism of their own culture It involves students in critical thinking and classroom discussion through the book s many What Do You Think inserts and will inspire them to careers with the book s unique chapter *Sociology s Place in Society Completing the Connection* *Graduate Theorizations: Imaginative Applied Sociologies—Manifest and Latent* Mohammad H. Tamdgidi, 2011-01-01 This Winter 2011 IX 1 issue of *Human Architecture Journal of the Sociology of Self Knowledge* entitled *Graduate Theorizations Imaginative Applied Sociologies Manifest and Latent* includes nine theoretically engaging graduate student papers six from a course in Applied Sociological Theory Soc 605 taken during the Fall 2010 semester at UMass Boston a paper on the philosophy of the self and architecture from the London School of Economics and Political Science and two master s theses in psychology from Bangor University UK The papers explore sociological imaginations of personal and public issues such as fear of crime and insecurity marriage and divorce growing up a third culture kid myths of success and the life plan growing up with Attention Deficit Disorder present in contrast to absent fatherhood architectural history and practice as shaped by self agency as well as social context pathological versus normal experiences of dissociation and hypnosis and mind body interactions in psychogenic pain These papers from diverse disciplinary origins or locations insightfully contribute in both manifest and latent ways to the application and enrichment of the Millsian sociological imagination Comparative and integrative readings of these papers also reveal in turn the extent to which liberating sociological theorizing and practice amid critical applications of the sociological imagination require awakening to and moving beyond the dissociative disorder and hypnosis of rigid disciplinarity Contributors include Alison Michelle Ireland Julianne M Siegfriedt K R Linda M Lazcano Ellen Maher Edmund J
