In the first section women who left poverty through higher education recall their negotiating the paths of college life to show how their experiences reveal the hidden paradoxes of education. Section two presents first person narratives of students whose lives are shaped by their roles as poor mothers, guardian siblings and daughters as well as the ways that race interacts with their poverty. Chapters exploring financial aid and welfare policy, battery and abuse and the social constructions of the poor woman finish the book. Offering a comprehensive picture of how poor women access all levels of private and public institutions to achieve against great odds, *Reclaiming Class* shows the workings of higher learning from the vantage point of those most subject to the vicissitudes of policy and reform agendas.
