Safety concerns everybody!

Always follow the instructions in the machine's operator's manual, which is a supplement to this Service Manual.

The Operator's Manual must always be kept in the cab for easy reference.

Volvo designs and manufactures machines with a high level of safety as well as effectiveness. All this work may be voided if anyone who is about to perform service on any of our machines does not read the safety instructions, or does not follow them, e.g., does not replace quickly check on slippery machine parts instead of using a ladder, grabs a hold of loose instead of handles or uses the wrong tools for the job.

In order to maintain safe and effective function, always use the intended and adapted spare parts for the machine (using genuine Volvo spare parts is recommended since they are adapted to the machine for highest safety and quality).

Machines which cause accidents, instead people suffer too.

A safety-conscious person and a well-maintained machine make for a safe, effective and profitable combination.

Those who do not follow the safety instructions and observe the warnings in this manual must make sure that their work method is safe. Otherwise, there is a great risk of accidents, perhaps even accidents that result in fatalities.

WARNING SYMBOL

This symbol is shown at various points throughout the manual. The appearance of it means "Warning, stay alert! Your safety may be at risk!"
