L 120

VOLVO BM L 120

• SPEEDY, POWERFUL, WELL BALANCED

Loading trucks, feeding crushing and screening plants, haul and carry over long distances, shoring and grading – these are operations where the Volvo BM L 120 has its rightful place as a speedy and reliable link in an efficient production chain. The L 120 is a very well balanced machine.

The engine and transmission form a well matched unit, allowing the operator to make full use of the machine's resources from the comfortable cab. The new Volvo BM L 120 is designed to meet the highest demands on operating productivity and economy.

RELIABLE POWER PACK

Final components such as the engine, transmission and axles are of our own manufacture. This means that we can assure consistently high quality and coordinated function.

Automatic Power Shift

The Volvo BM L 120 has an automatic shift transmission as option. A specially programmed computer takes care of gear selection and ensures that the machine works in the correct gear in all situations. Result: Higher production and better fuel economy.

LOADER UNIT

The Volvo BM L 120 has a strongly built loader unit specially designed for heavy-duty production work. The long reach and good lifting height make it easy to maneuver the load over high barriers and vehicles etc. It is important for a production loader to have good lift force in all positions, and the L 120 has a linkage geometry which permits this throughout the whole lifting range. Another refinement is an bucket

rollback. The bucket accelerates up against a machine stop so that the load in a well-filled bucket is moved as far back as possible, thereby increasing machine stability.
