Sprinter and Sprummer Timothy Entwisle, 2014-09-01 *Sprinter and Sprummer* challenges the traditional four seasons and encourages us to think about how we view changes in our natural world. Since 1788 Australia has carried the yoke of four European seasons that make no sense in most parts of the country. We may like them for historical or cultural reasons or because they are the same throughout the world but they tell us nothing of our natural environment. It's time to reject those seasons and to adopt a system that brings us more in tune with our plants and animals, a system that helps us to notice and respond to climate change. Using examples from his 25 years working in botanic gardens, author Timothy Entwisle illustrates how our natural world really responds to seasonal changes in temperature, rainfall, and daylight, and why it would be better to divide up the year based on what Australian plants do rather than ancient rites of the Northern Hemisphere. *Sprinter and Sprummer* opens with the origins and theory of the traditional seasonal system and goes on to review the Aboriginal seasonal classifications used across Australia. Entwisle then proposes a new five-season approach, explaining the characteristics of each season along with the biological changes that define them. The book uses seasons to describe the fascinating triggers in the life of a plant and plant-like creatures, using charismatic flora such as carnivorous plants, the Wollemi Pine, and orchids, as well as often overlooked organisms such as fungi. The final chapter considers climate change and how the seasons are shifting, whether we like it or not.

Running Through My Life - Autobiography of the Record-Breaking Welsh Sprinter Ron Jones, 2024-11-04 *Runner* Ron Jones was one of the all-time greats of Welsh athletics with 28 Welsh sprint records, 12 Welsh titles, and four Commonwealth Games to his name. He captained the British athletics team at the 1968 Olympics before going on to become the first Chief Executive of an English soccer club.

Italian Aurora Andrea Paolo Ferraresi, 2014-01-08 Dear reader, this novel will surprise you with an original plot blending a wedding and a cycling stage race. Prepare yourself for the unexpected. Indeed, the characters make choices which are completely at odds with the ones that our society suggests to us in our lives, and they achieve their personal or communal successes. So this novel, through fiction, aims to be a manual of best practices and habits which can help you solve all your problems in real life. Yes, you can spot a reference to the 7 habits of highly successful people by Covey; indeed, that wonderful book had been an inspiration to change myself for the better. However, this novel is much different; it describes actions more than habits, characters full of braveness, passion, taste, determination, style. These characters take life as a game to play; they know what they want, and they employ every resource they have to achieve the results. You will be surprised by how the character Treasure reaches the success by relying on skills he acquired while travelling. By how Galileo determines a joyful outcome by training in a way opposite to what the majority does. By how Blessed wins by disregarding failures and focusing on good first steps. You can read this book to have fun as much as the characters, as well as to inspire yourself in employing in your life the solutions the characters show to you. This book is a life-style like happiness.
