Overall the guide is organized into 13 page summaries of each specific topic and acts as a study guide for those who hope to study individual concepts in detail. All sections include detailed diagrams, color-coded notes, labeled illustrations, and detailed descriptions for effective comprehension. In addition to class studies, many students also have used this study guide as an MCAT review guide. The short and condensed review pages have helped many students organize and categorize important topics as they continue to study for the MCAT.
