

STAGES OF A CRIME INVESTIGATION: FROM PROBING THE CRIME SCENE TO PROSECUTING IN THE COURTROOM

Investigating a crime involves many processes carried out by a variety of professionals. Those stages can be categorized into three broad groups: on the scene of the crime, at the lab and in the courtroom.

ON THE SCENE AND IMMEDIATELY AFTER

Police officers are usually the first on the scene, where they may stop a crime in progress and apprehend offenders or suspects. If the crime was already committed, law enforcement personnel try to piece together exactly what happened.

Either way, they follow a process to gather evidence in support of a criminal charge and conviction.

POLICE OFFICERS MAY:

Stop a crime in progress

Apprehend offenders or suspects

Locate and question witnesses at the scene

Secure the scene

Crime scene investigators sometimes assist police officers or detectives in documenting the crime scene and gathering evidence.

A CSI, also called a forensic investigator or evidence technician, may be an experienced law enforcement officer or a civilian specifically trained in forensic science.
